A Piece of the Puzzle

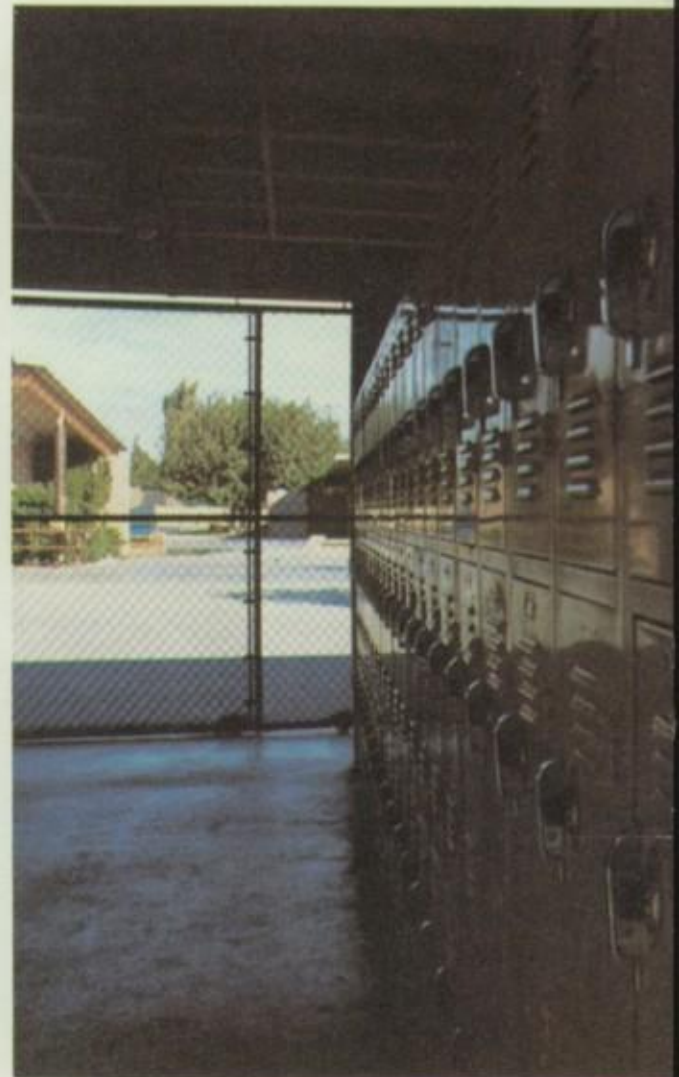

Dark, light, wind and rain
All are different as am I.
I like being me - to have my own hobbies
And habits - my own thoughts and ideas
I am my own person.

*My own person, but I need friends to
Share my feelings - to confide in
Special people to think about, to care about
Friends to love.*

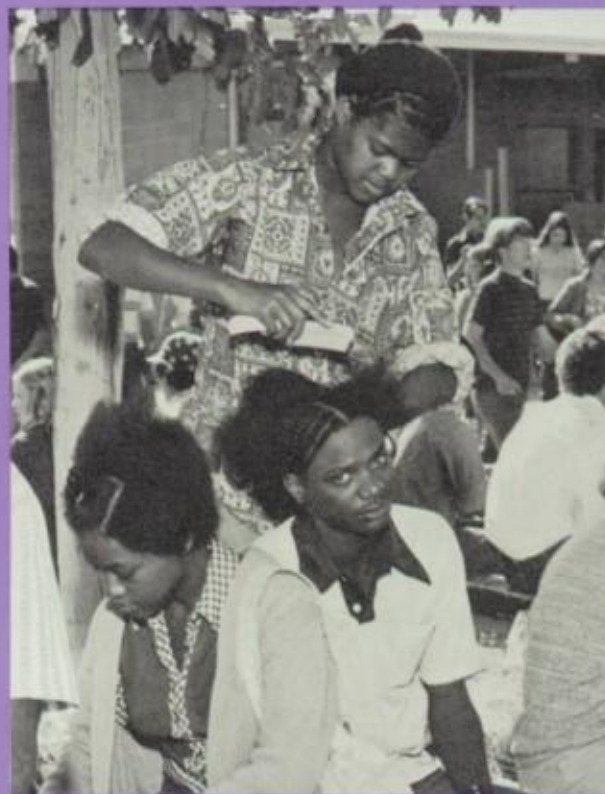

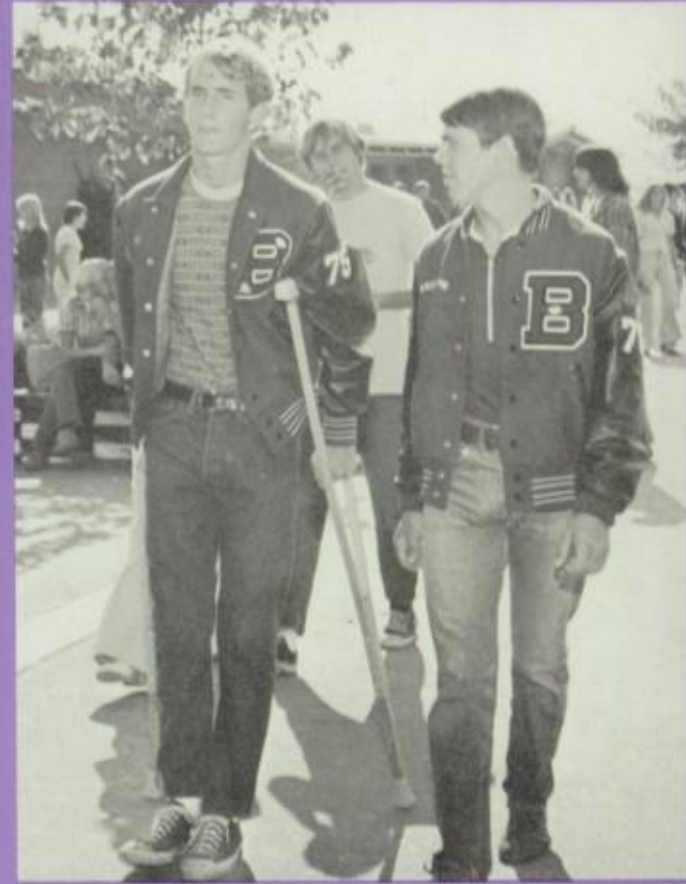

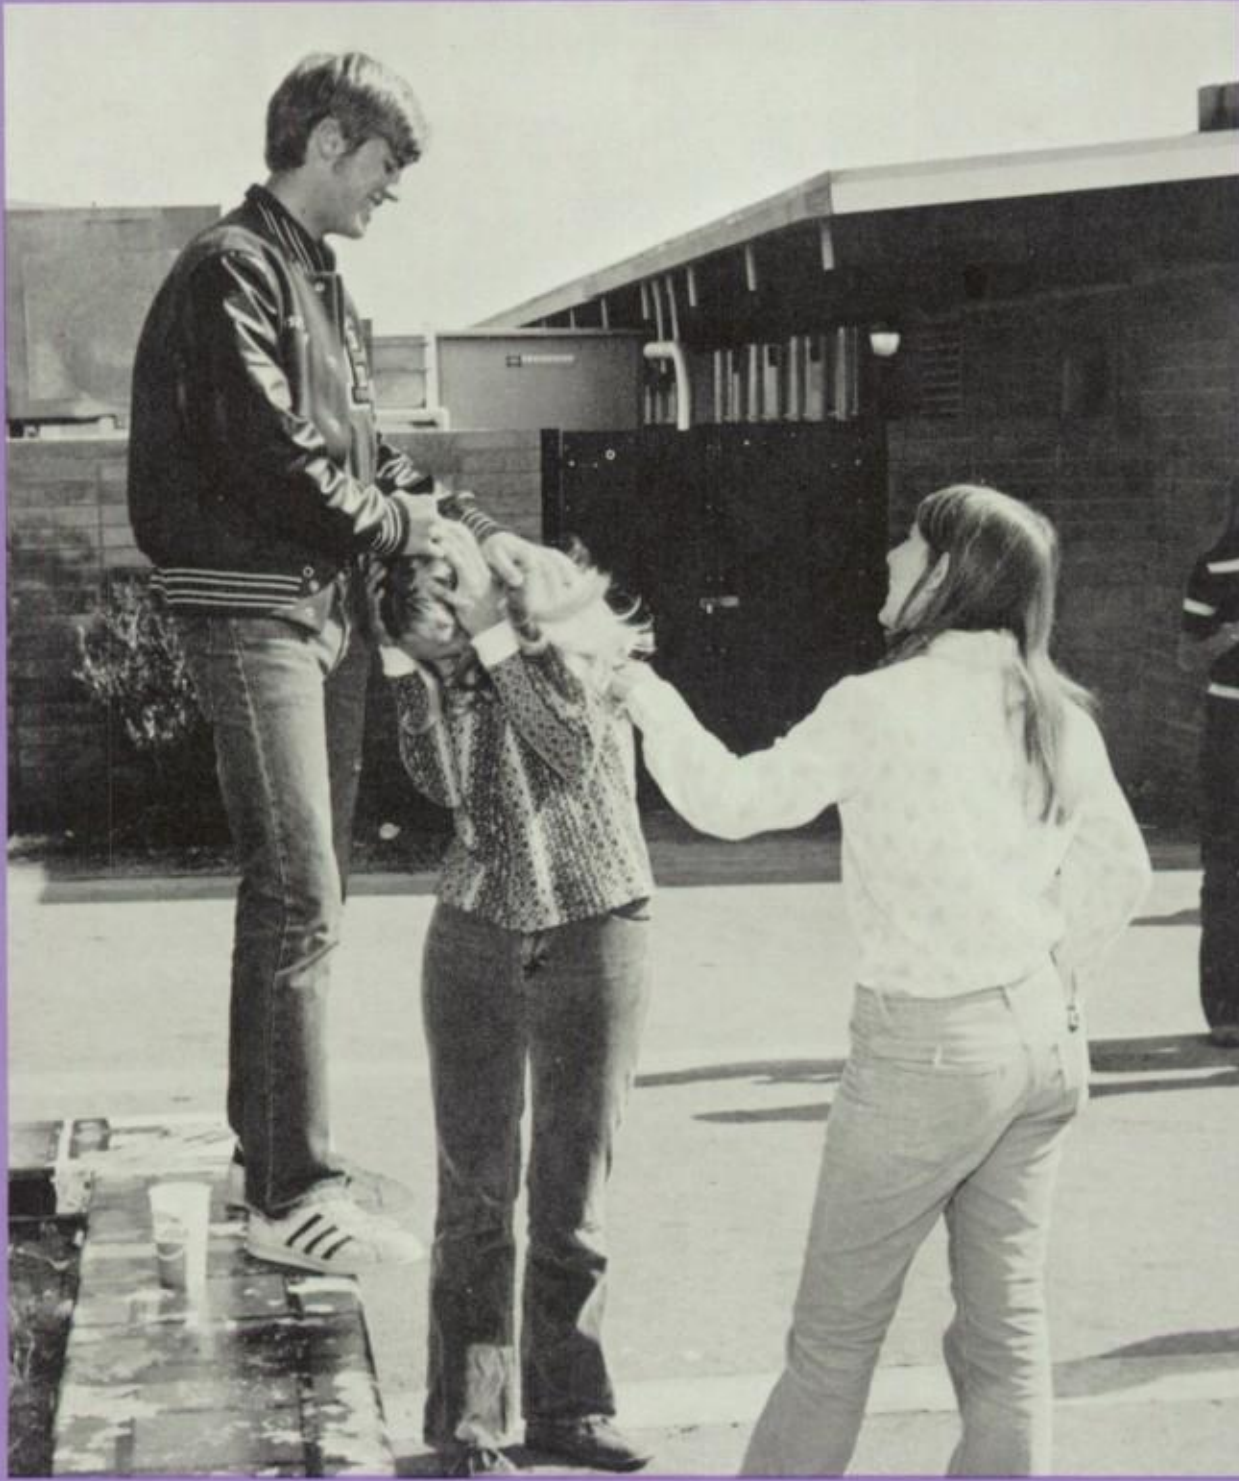

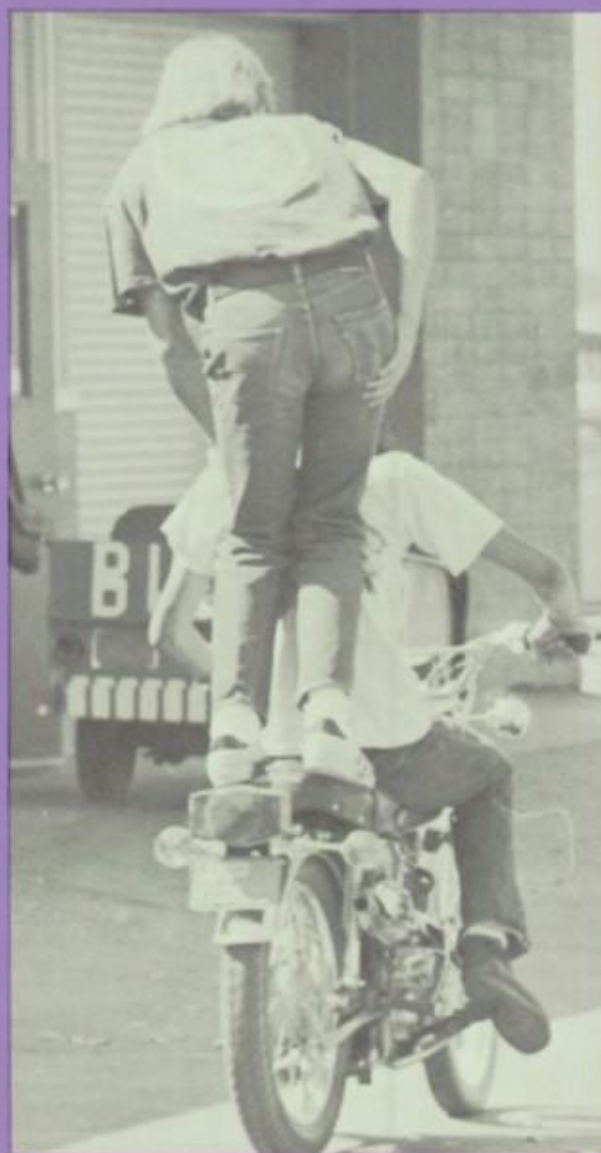

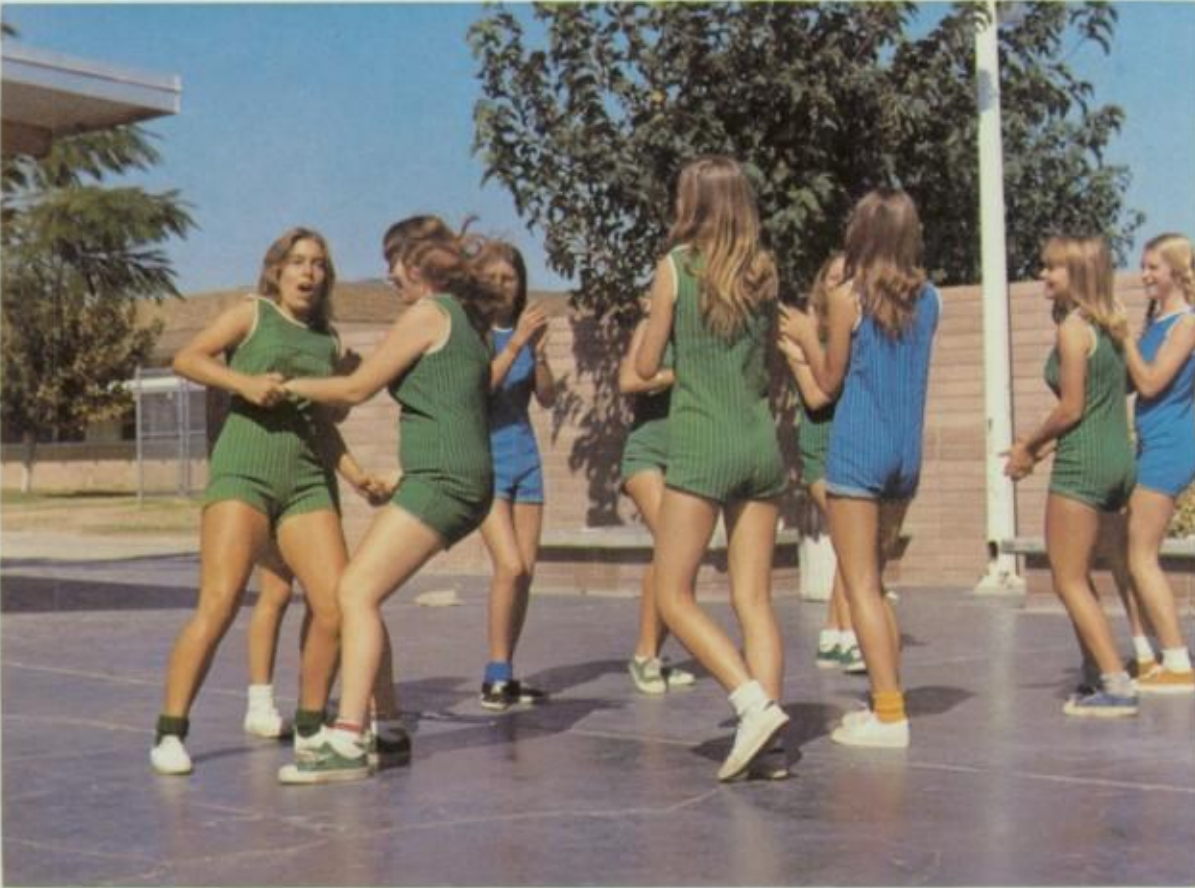

Together my friends and I live life with all
 Its different moods~and learn.
 We learn to share our individual thoughts,
 To become more as one~ a part of the great
 Mass.

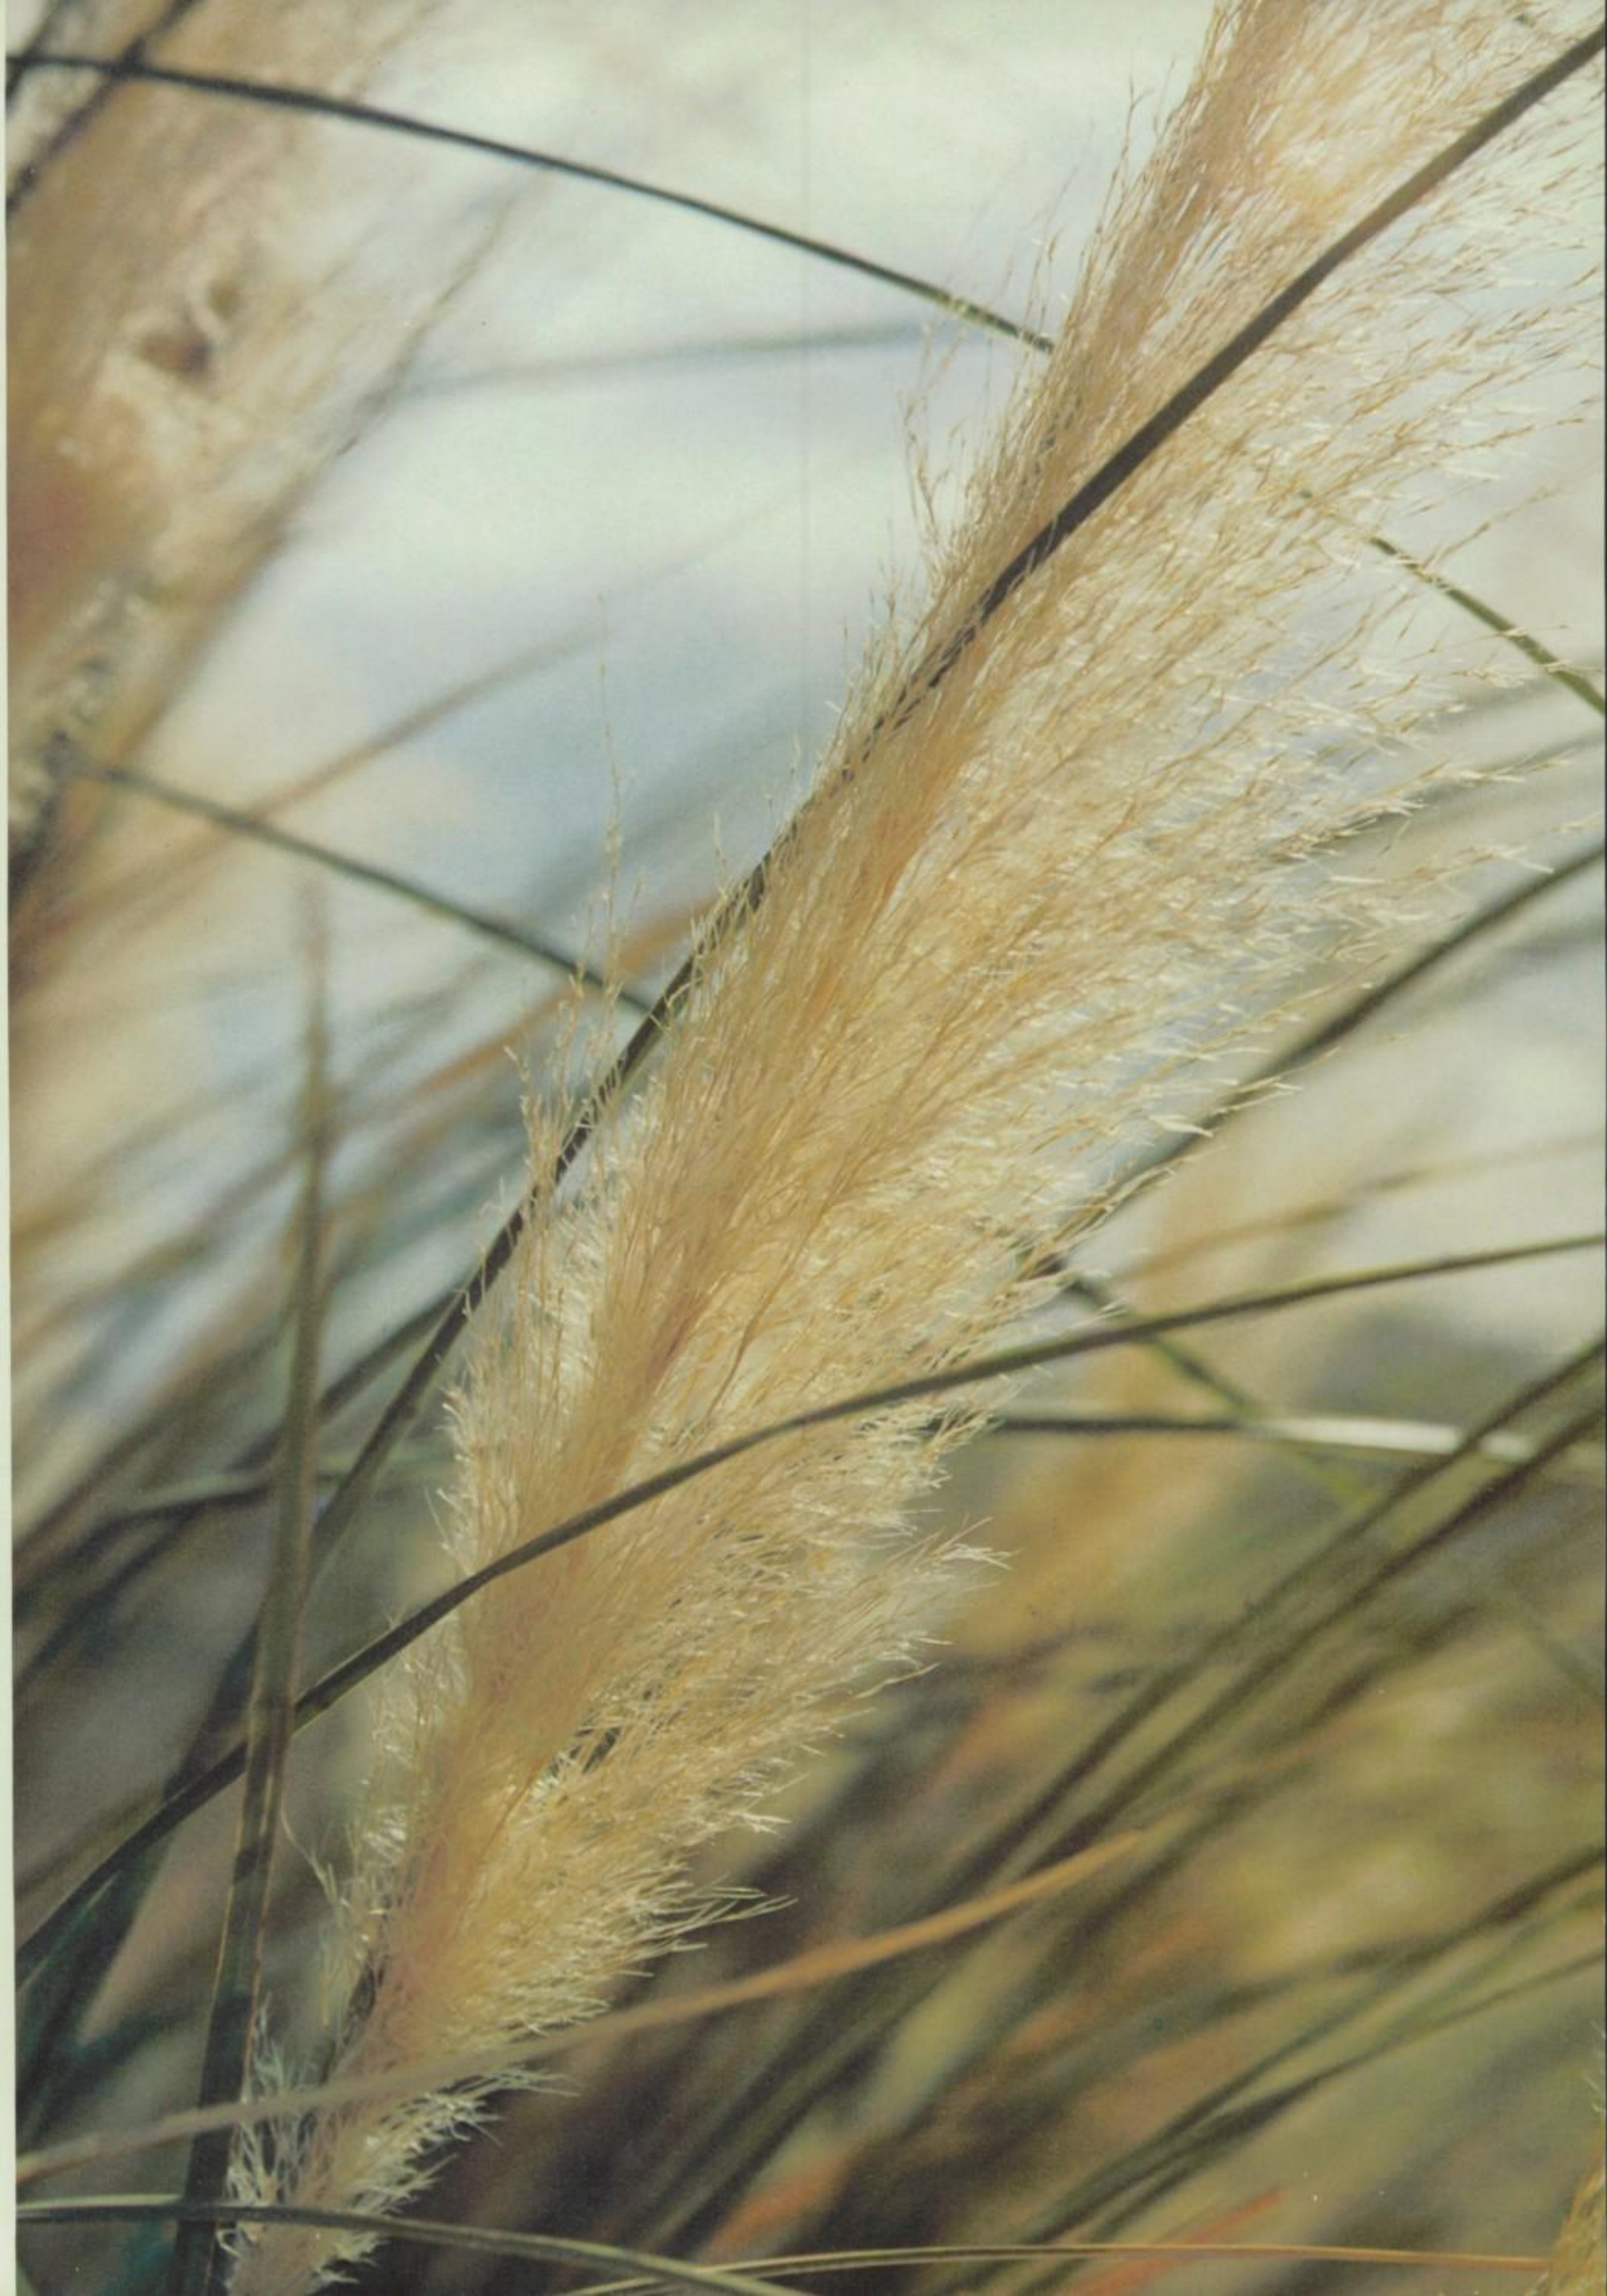

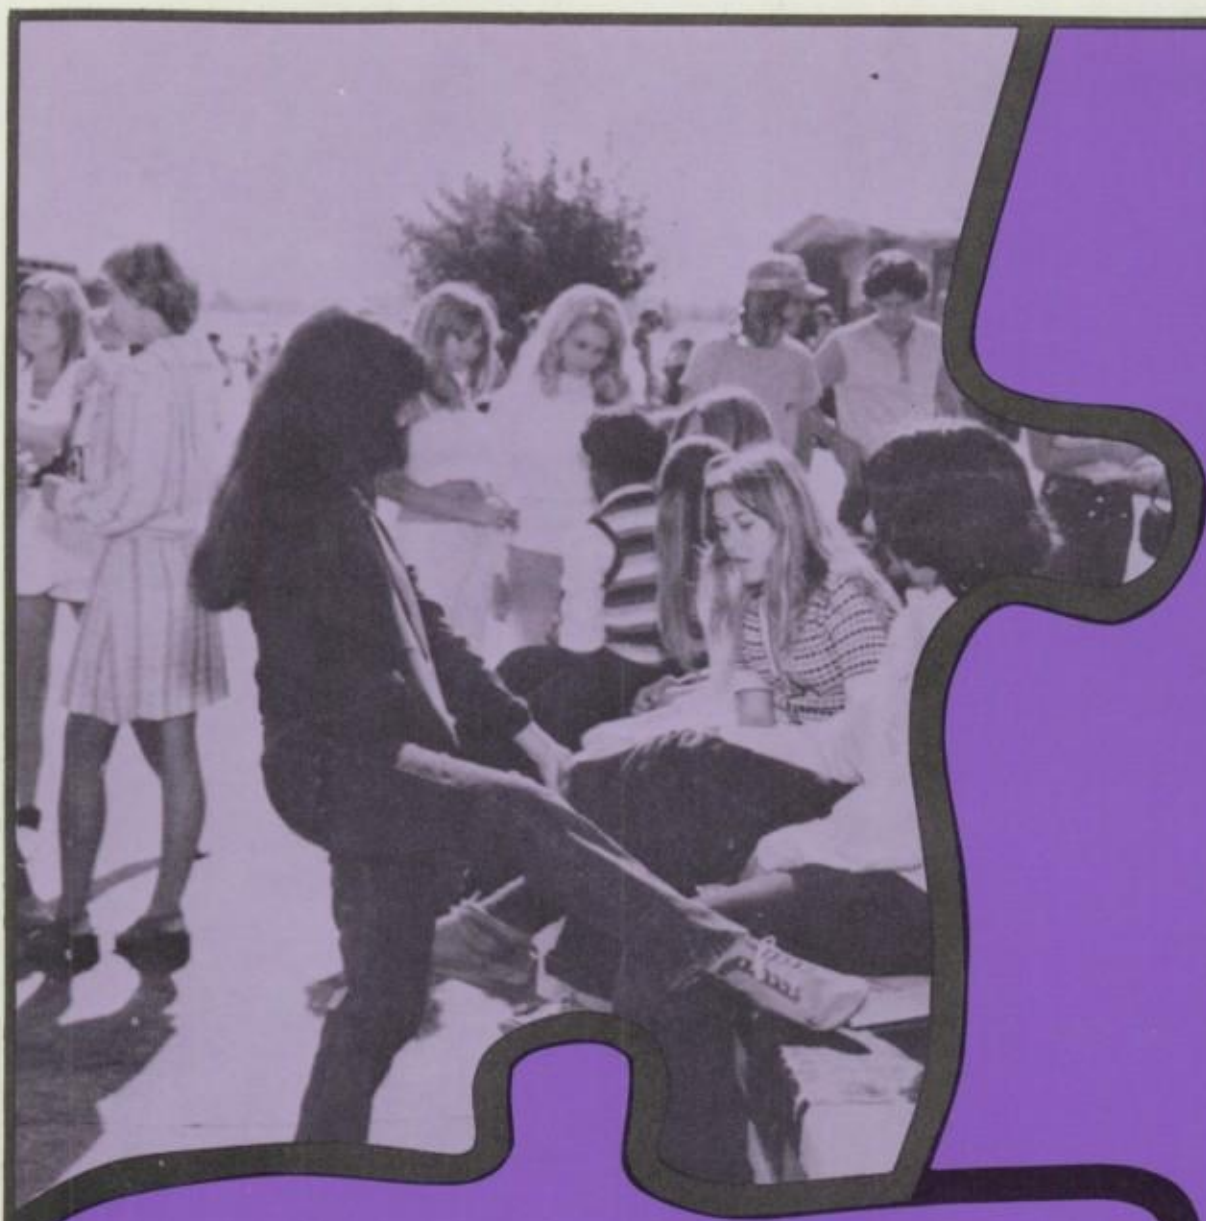

Moods changing with the coming of each day
Smiles, frowns, laughter, indifference
And caring. All together

Living to begin

Student Life-

It's called trial and error, We must
Learn to succeed, Life is full of good times,
No matter where they are, we search; at home
At school, until we find them, That's what
Student life is all about.

"We've got hard-working, hard-hitting kids and you can't keep them down. We're going to win some ball games." Head Coach Bruce Bernhardt commented early in the season. The 1974 varsity football team lived up to his words.

At the end of the season they had been declared co-champions of the Golden League and had earned a spot in the CIF playoffs.

At one time, chances for the squad's success looked bleak. The season began with the Burros losing both pre-season games. In their first league game, the gridders picked up their pace to dump Barstow 26-6. Quartz Hill then handed the Burros a serious setback by trouncing them 26-13. Deciding that they wanted the championship more than they

were showing, the gridders began their "new season."

The Burros knocked over their next three opponents and with high hopes stepped forward to meet the Antelopes, the team which had continually denied them the championship and the right to compete in the post-season playoffs. Underdog Burros pulled out a 29-28 victory that broke the Antelope's league streak at 27 and also placed the varsity team in a three-way tie for first place in the conference. By beating Apple Valley, the Burros claimed the co-championship along side of Quartz Hill. Some thirty returning players comprised the winning squad which was led by team captains Mike Dow, Randy Mather, and Kevin Smith.

Varsity Fights Way to C.I.F. Finals

With a fine season behind them, the 1974 varsity football team advanced to the CIF 2-A playoffs, the first team from Burroughs to do so since 1966. Making up for lost time, the Burros trounced Mt. Carmel in their opening game, edged past Agoura, and downed Arlington to advance to the semi-finals. In a wild game against Royal Oak, the Burros came up winners, 48-41. This win earned the Burros the right to compete in the finals against Neff High School. In a game riddled with fumbles and interceptions, Neff pulled away with a 59-21 victory. Although the Burros did not claim the CIF, SS, 2-A championship, they had accomplished much. Averaging 38 points per game, the 1974 Burros had gone farther in CIF competition than any other football team from Burroughs. Head Coach Bruce Bernhardt credited much of the squad's success to their closeness as a team.

Off to a bad start in league competition, the 1974 cross country team picked up momentum to finish fourth in league dual meet competition and second at Golden League finals. These wins qualified the team for the CIF pre-lims, where they finished sixth in their race. Although the harriers did not place high enough to go on to further CIF competition, they beat Victor Valley timewise and therefore wound up first in the Golden League. Coach Jim Tyrrell conducted practices over the rough new two mile course located south of town. These practices proved successful as the cross country team competed in three invitationals, the most ever attended in a season.

Wrestlers Face Stiff Competition

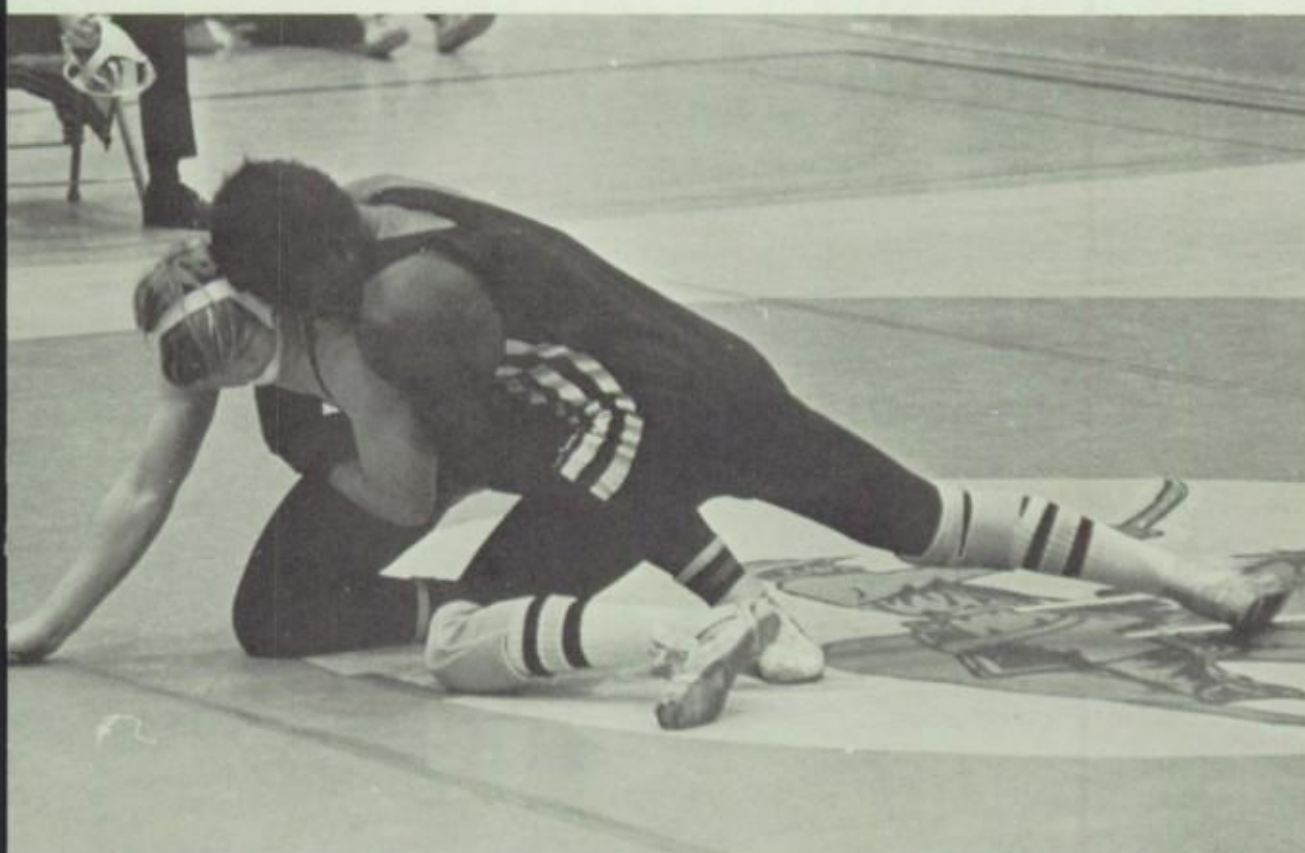

In a season with few highlights, Coach, Gene Vejtasa stated that the 1974-75 wrestling team was a good group to coach and he felt that every wrestler put out his best effort. With the coaches and many of the wrestlers still involved in football, the season got off to a late start on November 15. Twelve of the thirteen-man varsity squad were returning lettermen. Along with their seven league matches, the team also competed in two tournaments. Outstanding wrestlers of the season were Glen Mosley, Mark Taylor, Richard Mello, and Neil Watson. Glen Mosley went on to represent the Burros in CIF.

Finishing second with a record of 11-3 in Golden League action, the Burros' season was high-lighted by winning three of its games by a total of six points. Avenging an earlier league loss to Victor Valley, Billy Doremus' basket in the last 15 seconds defeated the Jackrabbits 60-58. Kevin Smith's last six-second shot pulling the Burros past the Falcons 69-68 and Mike Harrison's insurance basket defeated Palmdale again 74-71. Closing the final league games, Burroughs cinched a play-off birth by defeating the Antelopes 79-70, led by Mike Graham's 27 point performance. According to Coach Larry Bird, "The mark of an outstanding basketball team is the ability to win the close games. The trademark of the Burros 1974-'75 basketball team could be described as a team which possessed the ability to win in a clutch."

Varsity Roundballers Aim High

Burroughs represented the Golden League in the CIF playoffs for the third time in the past five years. The formula for success was two-fold. The team possessed balance scoring under the leadership of All-Golden League Mike Graham's 19 points per game. The other half of their success was due to an effective pressing defense and a lightning fast-break, led by the agility of Billy Doremus. In addition, Kevin Smith's and Mike Graham's ability to anticipate the pass, the press proved to be the life-line. Just as effective was the fast-break, led by 6'5" Noel Roberts, who dominated the boards and ignited the break.

Following a pre-league season full of bad breaks and injuries, the Frosh basketball team went on to earn the top place in Golden League play. The aggressiveness of Jay Kovar and Dave Furstenburg showed itself in their rebound and scoring totals. Tony Pfau and Chris Dominguez added spark at guard while John Haywood became the team leader, averaging 24 points and 18 rebounds per game. Winning 10 of their last 12 games, they ended with a 9-1 league record. Teamwork Earns Victories

Coach Ed Schwartz predicted a winning season for the varsity baseball team based on hitting depth and a long line of outstanding pitchers. Starting with a new team consisting of only four returning lettermen, Coach Schwartz and the players took on the Bakersfield Drillers for their first pre-season game. After splitting a doubleheader the Burros headed on to win their next four games, bringing their record to 5-1 with one pre-season game remaining.

Baseball Teams Look to Victory

Beginning practice in February, the JV baseball team worked hard toward the Golden League championship. Coach Larry Bird commented that hitting and defense were the team's strong points and that they could be possible contenders for the top spot. With a total of 14 league games, the players felt that they could wind up the season with a strong finish.

Practice Makes Perfect Golf

Practice is the key word for success in competitive golf, and the BHS golf team firmly believes in the technique. To determine who is to play in Golden League competition, the varsity took turns practicing on the course. Those with the best practice scores, went against those from the other schools in the league. Put to the test on March 13, the boys were given a taste of what season golf would bring. From then on, it was Golden League all the way.

Swimmers Set New Records

For the first time in swim competition, CIF permitted schools to qualify in four divisions rather than in only one, 4A. This gave Burroughs' Swim Team a good break, allowing them to send five members to CIF quarter finals at Santa Monica: Dwayne Eacret, Mike Hamm, Steve Hamm, Doug Wilson, and Ricky Wright. Mike Hamm tied for first in the breaststroke, giving him the right to compete in the finals. Swim competition for girls began after the completion of the boys' season. Prospects looked good for an outstanding season for them also.

In the other divisions the Frosh-soph did well over their competition. The girls team turned in the best performance of the early season with a 2-1 record. Finishing the season with a 5-2 record, the Girls' Volleyball team racked up their fair share of victories. The JV's ended the season with a 3-3 record although Myrna Martin was voted the Golden League's Most Valuable Player. Miss JoAnn Dunnick coached the teams.

New to Golden League competition, gymnasts at BHS now have a chance to reach CIF. Winning a majority of Golden League meets, they look to the CIF pre-lims where the top ten from the school have a chance to qualify for the most important competition of the season. Under the direction of Coach Julie Helgersen, in her first year as head coach of the squad, and with Assistant Coach B.J. Peck, the gymnasts faced stiff competition in both girls' and boys' meets but managed an early winning record.

LEFT: Mary Waters vaults over the horse during a meet against Quartz Hill. This vault, called bent-hip straddle, is fairly simple. Toes should be pointed and hips lifted for a good score in competition.

Girls Reach for the "Big Time"

While the Golden League championship eluded the varsity girls, the team had hopes for a second place berth to CIF. In a strong second place to Quartz Hill, the girls proved that they were capable of beating every other team in the league. The 15 member JV proved also that they were a team to be reckoned with, by winning first place in league. Hitting the course for the first time in Golden League, the teams, under the direction of Coach Marla McBride, will have several starting members return next year to try and wrest the championship, and reach CIF playoffs.

3 In a Special Education class, students work on specific assignments designed to increase their skills in useful as well as academic areas. Bowling and swimming also are included in their program. Other students meeting with difficulties in the regular classroom situation are enrolled in Opportunity classes which stress English, Math, Social Studies, and Science. Mr. James Coker teaches these special classes.

1 Geometry students in Mrs. Jean Kraus' class listen attentively as she explains the way in which math relates to the every day world. More than forty classes are offered in the Mathematics Department. These cover both fundamental and advanced classes to meet the needs of all students.

2 Advanced math students, Connie Lane, Mike Donohue, Linda Misfeldt, and Mike Schultz, tour Michelson Lab with instructors. This lab host Burroughs students each year, showing them the various advancements in the field of mathematics and their latest applications in scientific research.

3 The Burroughs Burro rests in its prominent place on Mrs. Kraus' desk, proclaiming her pride in the school and its athletes. This advisor of the Pep Club is well known for her school spirit and enthusiasm for sports.

Science Searches for Tomorrow

1 Writing furiously to finish her lab, Samantha Swann quickly records her observations in triplicate for instructor, Mrs. Catherine Veatch. Chemistry is a class for advanced science students. Mrs. Veatch teaches four classes in Chemistry. Other upper level courses planned for the science major are Physics, Advanced Biology, and Zoology.

This class is the only government class to be taught in the afternoon as well as the only one to be taught by one teacher for the school year. Mr. Nagle's class is using a new book, **American Political Behavior**, which relates the findings of social scientists to political behavior. Government is also a graduation requirement.

4 Denise Mendonca remains impartial while polling the government classes for the 1974-75 Homecoming Court.

5 Mr. Robert Roseth remembers the days of the "Shadow" and Buster Crab, in a demonstration of the advantages of radio. Says Mr. Roseth, "In the good old days, we used our imaginations in entertainment, nothing like today's T.V. where all the work is done for you. I can't really say, but is that good or bad?" Futures class, an experiment, was started when teachers Paul Colter and Joe McCuistion decided that the study of tomorrow was just as important as the study of yesterday.

6 According to Mr. William Novascone, head of the Social Studies department, the definition of social studies is as follows: "Social means people and study means skills. Social studies is first an awareness of yourself and how you as an individual get along with other people. Skills learned in social studies are the skills you as an individual can use when you're a citizen, such as voting and listening to the issues and candidates." Social studies classes range from the study of man individually and historically in U.S. History, Government, Ancient History, 20th Century, and the behavioral aspects of Sociology and Psychology.

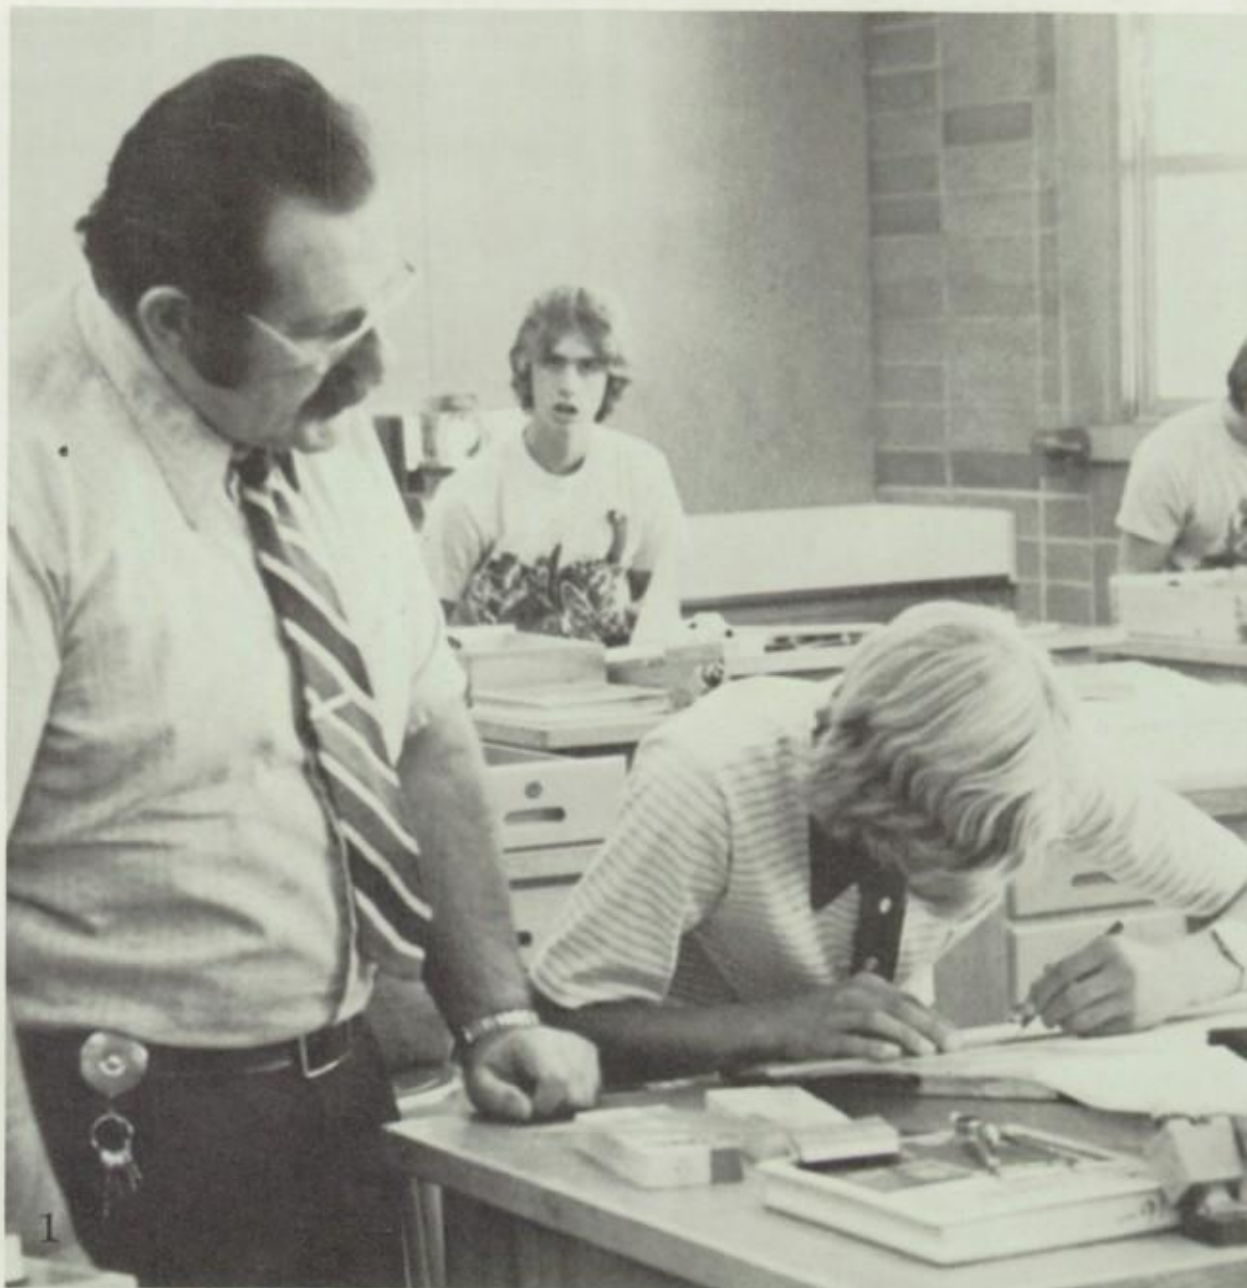

Industrial Arts Builds the Pieces

Language Speaks With Many Tongues

1 Miss Marcia Kornmann shoots a mild look of disapproval toward an intruding yearbook photographer. One of four instructors of languages, Miss Kornmann teaches beginning, intermediate, and advanced German. Each year she sends German students to the county-wide Language Festival held at Cal State Bakersfield, and Miss Kornmann will be first to note that her students tend to do extremely well at this particular competition.

3 Spanish students, Candi Brown and Christy Corzine, find that reading narratives to Mrs. Elaine Miller helps give them a better understanding of the Spanish language. Mrs. Miller teaches five classes of Spanish.

PE Program Offers Pass-Fail System

1 In the unit on outdoor education, pupils may demonstrate various special skills. Karen Barron arrives on her horse for an early class.

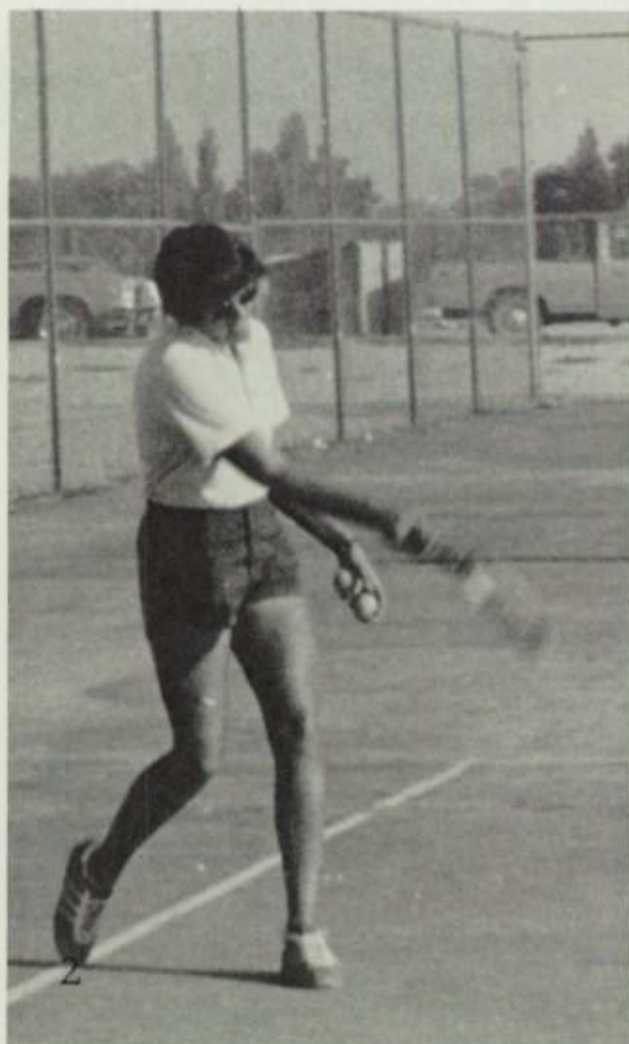

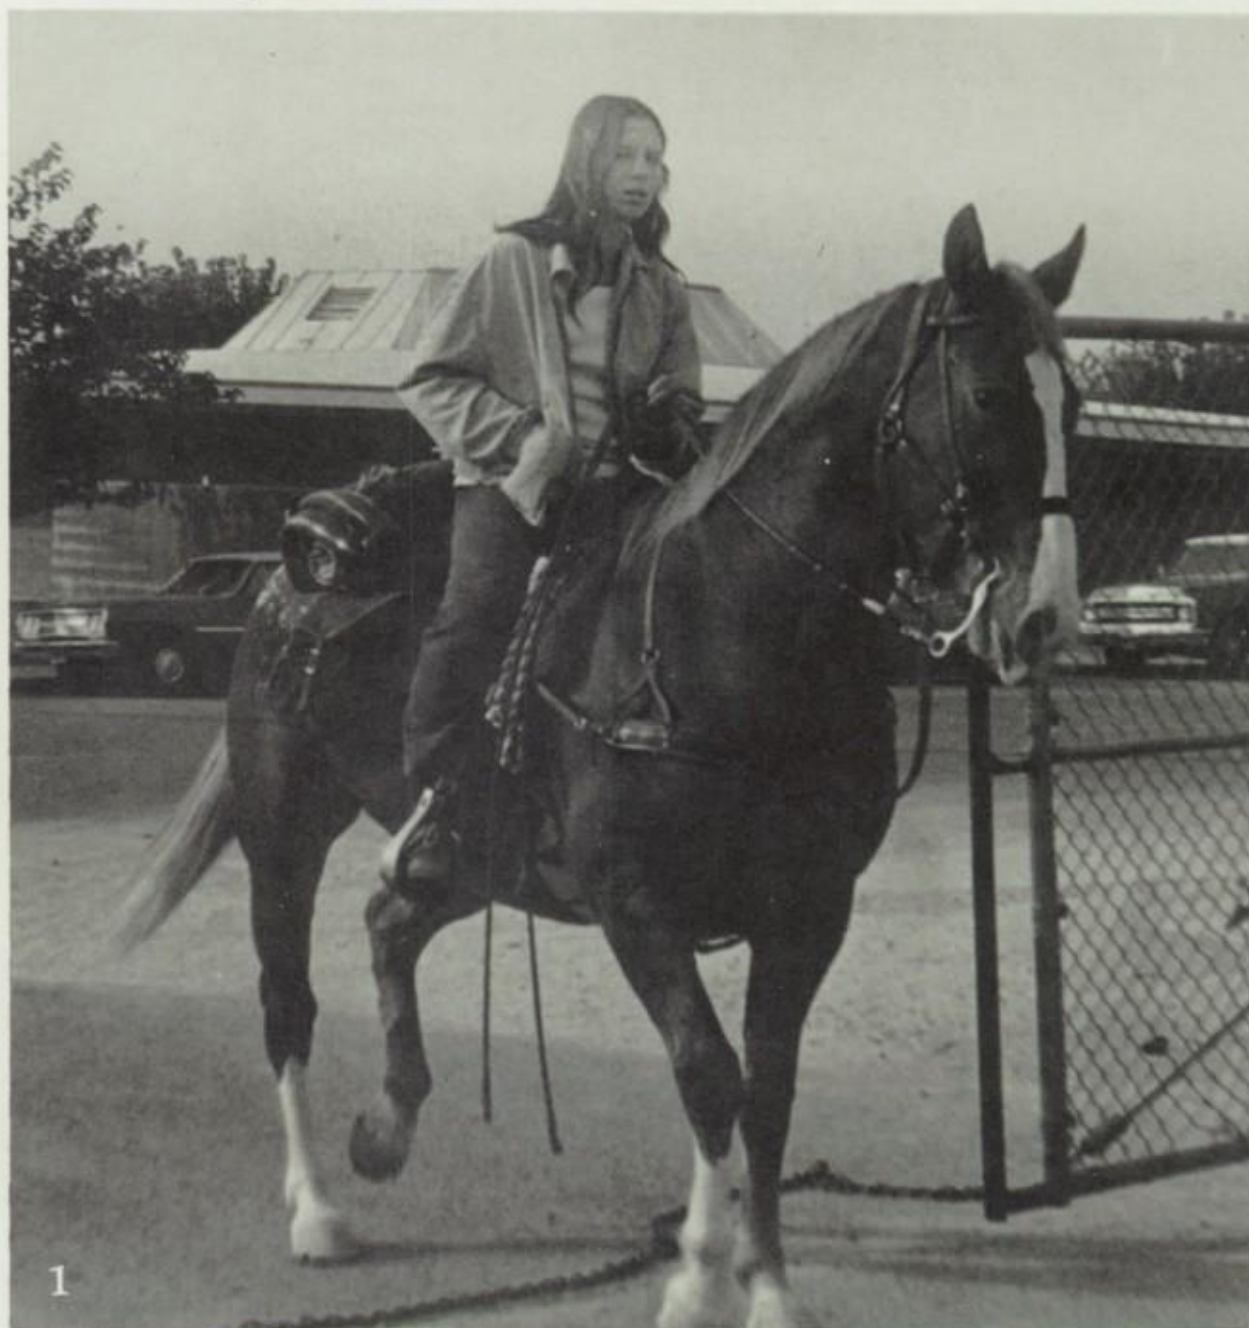

2 New on the staff this year, Mrs. Marla McBride teaches two hours of physical education. Mrs. McBride demonstrates the forehand drive, one of the finer points of the game.

3 To insure proper safety, eager athletes repair equipment for field hockey, an area of particular interest for many of the girls.

4 Volleyball is another favorite coed class. Under the pass-fail system, students can enjoy the unit of their choice without having to worry about the traditional grade.

5 One of the most enjoyable of the various offerings is the social dance class where students learn how to perform the dances of the past.

6 In the newly revised Physical Education program, offering a large variety of four-week units, recreational activities have proved to be the most popular. Also among the several favorites is basketball.

People-

I am I and I belong-I am a part
All different kinds of people
With their own ideas and understanding
But they are here, they belong, and they are
part too.

I just do my thing and they theirs
Me and You together, we make one.

Q. Mr Reid, what are your feelings about the new Sierra Sands Unified School District?

When I was in High School...

Mr. Murle Rizer:

One day a female companion and I organized a sit-down strike to protest something that both of us have now forgotten. We were all sitting down in self-righteous anger when the emissaries of the administration strode up. All my brave and loyal followers got up and meekly slipped off to their classes, tails tucked between hind legs. My friend and I, of course, got a well deserved reprimand. I'll stick out my neck and promise that if any student ever outdoes me for sheer oneriness, I'll quit teaching. And if I really thought that any student could ever outdo me, I wouldn't risk a job I like so well. I was a walking terror in my youth, and I haven't ever run into the student that shows that kind of promise in hell-raising.

Mr. Sid Richison:

In my senior year here at Burroughs, I was captain of the debate team. Ms. Ann Cierley was our coach then, and one day she was not at school. We had this nice looking lady for a substitute. Over-estimating her generosity, sixth period debate decided that she looked thirsty, and so we went to Foster's Freeze for cokes. But first we took the precaution of getting her to promise not to tell on us. When we got back, this wonderful woman not only drank her coke but also drank several of the others. Then she turned around and sent us all to the office for leaving campus. Just goes to show that you can't trust a nice looking substitute; the mean looking ones are really the true gems, I guess.

RIGHT: Mr. Sid Richison listens to his novices during class. Mr. Richison not only teaches debate and interpretation classes, but also remedial English, and is Debate coach. This entails driving members of the squad to various large tournaments all over the state. While his teams compete, Mr. Richison often judges for the hosting university or school. He has been instrumental in bringing the squad off a disastrous two-year stretch to renewed success in both debate and individual events.

OPPOSITE PAGE: During her lecture, Mrs. Catherine Veatch explains scientific monitoring of electricity to her chemistry students. Back from the Far East, Mrs. Veatch is in her first year at Burroughs. She teaches chemistry and algebra.

Mr. Bob Roseth:

I suppose that I could tell some very funny stories about our wild "B" football trips, but most of my students have already heard those lies. Rather, I'd like to thank two Burroughs teachers who really turned me around. Teachers can be an important influence on you. I'd like to thank Mr. Merle Rizer, who taught me how to express myself in the English language. He's also the inspiration for my famous thought papers. And also I would like to mention Rod O'Meara, my Varsity football coach here at Burroughs. He taught me the most effective form of leadership: leadership by example. My memories of these two men are good ones, and they somehow stand out in those very happy years. They influenced my life and my career.

BELOW: Bruce Bernhardt, head football coach, and John Higdon, defensive coach, catch a bit of conversation between classes. This year, both teach co-ed classes on a pass-fail basis. Teaching in a more relaxed atmosphere has been said to ease relations between teachers and students, and obviously, between teachers and teachers. It's evident that those shown here enjoy the added time to take in a little sun.

Mr. Alan Kubik:

I was addicted to dramatics and convertibles even in high school. One boring evening, I decided to liven up the local drive-in. I had a 1955 Pontiac convertible, so I talked one of my friends into driving it for me while I got on top and posed as a human hood ornament. I have other stories about my obnoxious behavior, but I'm not letting on about those. Without a doubt, the most important is the most obvious: once a ham, always a ham.

Mrs. Noema Ayers:

I remember, my senior year was very important to me because I met my husband that year. In this one big class I was enrolled in, we had to sit in alphabetical order. His name started with "AY" and my name started with "AR," so he sat right behind me. He teased me all year long, and finally he asked me out graduation night. We were married that year, and we've been married 23 years now. Yes, that was a very good year in my life.

Mrs. B.J. Peck:

I remember the time I was chairman of a committee in charge of the Sadie Hawkins dance at my school. I went through all this hassle to get the whole thing together, but I had reconciled myself to pouring punch, because I couldn't get up the nerve to ask this one guy. Finally I did ask him and, amazingly, he agreed to be my escort. That was quite a while ago, but we both remember that dance, because we later got married.

Foreign Students Add a Little Spice

I am Jairo Rojas and I was born on August 20, 1955, in Colombia, South America. I have three brothers in Colombia, and I am the eldest. My parents are business administrators working for private enterprises in Bogota, Colombia. I live in China Lake presently, with the Atkinson family. They are, my American father, Robert Atkinson, my American mother, Diane Atkinson, my two American sisters, Sheryl and Debbie Atkinson, and my American brother, Mark Atkinson. I also have another American brother, Ben Dziengielewski, from Connecticut. He was in my home in Bogota for ten weeks in the summer of 1974, and this makes me realize how big the AFS family is.

I want to thank all the people in China Lake and Ridgecrest who have received me with open arms and made me feel at home. Like I have said, I am very happy in this new country. My American family is more marvelous than I could ever have imagined. I never thought I would adjust myself so easily. I am very happy here at Burroughs High School. All the people are very good, and I love this school.

I am in the United States through the American Field Service program, and I now realize how important AFS is for promoting cultural exchanges. Here I have learned new customs, new ways of life, and a new understanding of the United States and the way it is. I think that the people that know me can now understand how it is in Colombia and how our customs are.

I think that being here is like a union of the two countries.

It's like a handshake between two different places.

—Jairo Rojas

Seniors

"Stand up and cheer 'cause the seniors are here!" The class of '75 proudly graduated as the first class of the Sierra Sands Unified School District. Along with this newness, was the elimination of the required four periods and the PE requirement for eighth semester seniors.

Early morning meetings were held under the leadership of Barb VanBuskirk and were avidly attended by active participants of the Senior Class. Painting the Senior Bench and trash cans were among the tasks eagerly taken on by the class of '75. Working hard and together, the seniors created the Best Class float for the second time.

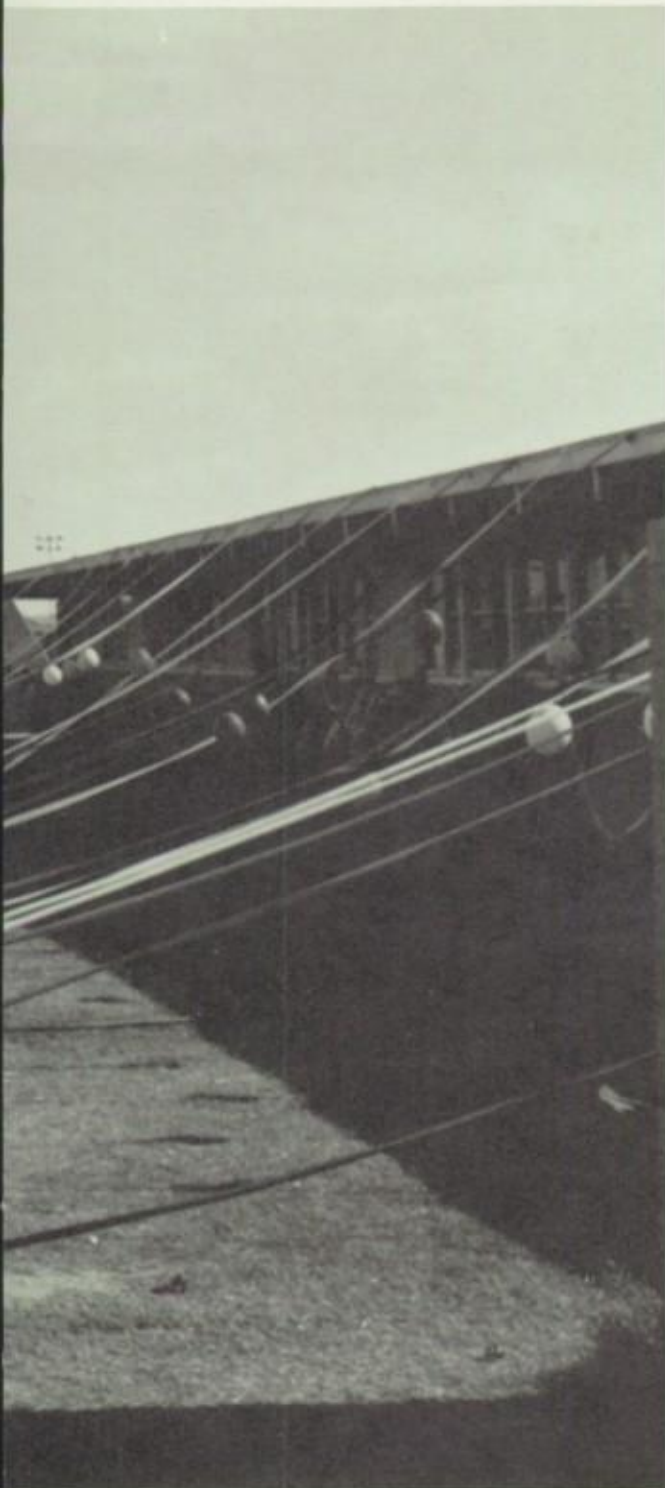

Sad about leaving the old Alma Mater, seniors anxiously prepared to continue their lives. Seeking out colleges to polish their educations, taking placement tests, and applying for scholarships, the seniors prepared to begin new careers.

Under the auspices of Mr. William Novascone, the class of '75 gloriously culminated its four enjoyable years at BHS.

ABOVE LEFT: Cyndi Moe and Gary Reeve show the true Burros spirit, which earned them the title of **MOST SPIRITED**.

LEFT: Debbie McAlpin and Keith Barron demonstrate their **BEST PERSONALITY** as they show that they have fun doing almost anything, even climbing trees.

Spirit of '76 Flies High in the Sky

ABOVE: Junior Class officers are Denise Mendonca, president, Roberta Borges, vice-president, Lydia Moe, secretary, and (NOT PICTURED) John Daly, treasurer.

ABOVE RIGHT: The '76 balloon flies proudly in the sky. It served as a symbol to all the many activities of Spirit Day.

ABOVE CENTER: Members of Humpty Dumpty's gang: Robert Milbrath, Brett Catcott, Greg Day, Richard Milbrath, all say that if they had been sober, they would have fallen off!

RIGHT: Seeking assistance from Mr. Dale Robison during selection of classes, comes naturally to Carolyn Bruskin. Mr. Robison is advisor to the Junior Class.

Working to meet the traditional goals and responsibilities of the Junior Class made the year '74-'75 go fast. Contributing to the Spirit Week festivities, the Junior Class built a float entitled "Give Me Victory or Give Me Death." Led by class officers Denise Mendonca, Roberta Borges, Lydia Moe, and John Daly, juniors won the award of Most Spirited. Work for the prom began soon after the end of the football season. Juniors sold discount ticket booklets, held bake sales, and aided their community while serving their school. Preparing for their year as seniors, juniors also prepared for their academic future in U.S. History classes. All in all, it was an eventful and promising year for the class of 1976.

TOP: Class representatives to Student Council are Teresa VanBuskirk, Kelly Smith, Susan Beckett, Megan Porteus, and Sandy Olewine.

ABOVE: With cries of "We're number one!" members of the Junior Class tour through Ridgecrest on top of their float during Homecoming Parade.

LEFT: Pensively, Lorretta Zurn seems to be dreaming of the future after high school.

RIGHT: Debbie Hunsinger shares a joke under the shade of the Junior Class tree.

BELOW: Assorted male members of the Junior Class try a new angle on pitching pennies.

BOTTOM LEFT: Marie Johantgen searches for the missing picture to show to classmate Laura Reymore.

BOTTOM RIGHT: Jerry Pangle enjoys the female companionship that surrounds him at lunch.

Junior Class Expresses Personality

LEFT: "We are juniors and couldn't be prouder!" rang through the campus on Spirit Day.

BELOW: Kathy Kerschsieper and Diane VanDevender share lunch with Senior Gary Haugen.

BOTTOM LEFT: David Bare and Julie Clodt take a liesurely stroll to class.

BOTTOM CENTER: Ann Zaharias cheers for her class during a lunch time rally.

A camera on campus always excites response, but Christy Woodall and Suzie Kuzmin, **RIGHT**, put forth so much effort to get in this shot that Mr. Jim O'Connor could hardly refuse the favor. Both juniors, these girls prove that on campus anything can happen, and often does. Lunch break is a pretty carefree time, and friends congregate under various trees to eat and compare notes on the previous day. Juniors Robert Rosas, Don Chieze, and Ray Arenduque, **OPPOSITE PAGE**, also enjoy socializing.

Stacie Johnson, Michelle Ballenger, and Lynn Preston, LEFT, all juniors, enjoy the warm sun trapped by concrete benches. As these girls are the first to admit, this position comes in handy for one of their favorite pastimes: people watching, or in this case, Burroughs High School student watching. Taking a stroll around the disheveled campus during Spirit Day, Gabby Garcia, Debbie Everitt, and Rae Lewis discuss the advantages of being an upperclassperson. Juniors were extremely active in all the fun sponsored that week. Intensive work on a float paid off when the float, entitled "Give Me Victory or Give Me Death," received special honors in the Homecoming Parade later that day.

"Spirit in the Sky," inspired many interesting and original costumes on Spirit Day and Caroline Bruskin, **LEFT**, goes all out to express enthusiasm and originality. Holly Breslow, Debbie Braem, and Delores Martin, **OPPOSITE PAGE**, discuss future meetings of the New Life Fellowship, a club that attracts many juniors to its membership.

Facing many challenges this year, the Sophomore Class met their first, and perhaps most important, that of selecting class rings, with efficiency and maturity. Hard working class officers managed the financing of special events by staging projects ranging from bake sales to bottle drives. Accomplishments highlighted the year, climaxing early when the sophomore float was awarded the Judges Trophy. All in all, perhaps the best words to use when summing up the year for this class would be "bright promise."

RIGHT: Sherry Lloyd, Felicia Smith, and Beth Nash demonstrate one of the simple first aid techniques taught in their health course.

BELOW: With the help of Mr. Eddie Hammon, Mrs. Noema Ayres, and Mr. Don Mourton, the sophomores make it through another year.

BELOW RIGHT: Counselor, Mr. Don Mourton, involves sophomores in free discussion.

OPPOSITE PAGE, TOP: Laura May leads members of the class of '77 in a salute to Burroughs.

BOTTOM RIGHT: Officers Mitch Lyon, president, Cindy Ayres, vice-president, Annabelle Espiritu, secretary, and Hugh Washburn, treasurer, carry the responsibility for the issues that affect the Sophomore Class through the year.

A common sight on campus is the push and shove in the locker area. With only five minutes to collect books and get to class, Shane Kahn, **LEFT**, pushes through the crowd. Jessie Moreno, **OPPOSITE PAGE**, gives the impression of total immersion in his geometry. Even exceptional students rarely devote an entire lunch hour to study, but for Jessie, diligence pays off.

The Mafia makes an appearance on campus in the form of Mauro Vidal and his moll, Celeste Butterfield, LEFT, both sophomores. Members of the class of '77 donned mafioso garb for Spirit Day activities.

Undeniably, the freshman year in high school is a year of growing, learning, and taking harassment from the upper classmen. The class of '78 managed to pull through their first year with few problems. They held class meetings about twice a month to plan for such things as the Freshman Frolic in March. Helping the frosh were class advisors, Mr. Al Sedillos and Mrs. June Goforth.

ABOVE: The hard work and time put into their class float proved successful for the freshmen when they garnered their trophy, the judges' award.

RIGHT: Dressed in unusual attire, the freshmen spent Spirit Day doing the usual things: cheering, joking, clapping, laughing.

Frosh Encounter High School Life

ABOVE: An Orientation assembly held at the beginning of the year attempted to prepare the frosh for life at Burroughs. It covered such subjects as attendance policies, clubs, sports, and various other activities.

ABOVE, LEFT: A student prank during Spirit Week resulted in the destruction of the Freshman Class tree. Not only was the tree destroyed for the class of '78, but also for future freshmen.

LEFT: At an impromptu meeting, Diane Gibson, vice-president, Dory Johnson, treasurer, Mary Waters, secretary, and Glenda Davis, president, plan the freshmen activities.

Freshmen, **LEFT**, rally to the cause of their class on Spirit Day, appearing like some bedtime outcasts from the night before. "Waking up to spirit" was the theme chosen by the freshmen for Spirit Day. Tammy Driggers, **RIGHT**, puts forth her best efforts to display her spirit. These pants might not fit Reid Baker, El Burro's head photographer, but he knows he can find some that do at the MALE BOX in the Coso Shopping Center, 122 S. China Lake Blvd., your Levi headquarters in Ridgecrest. It's the place to go for casual wear.

The Instant Teller is the newest innovation recently installed at the COMMUNITY NATIONAL BANK, 234 Balsam. It is demonstrated here by Cathy Schneider, an employee of the bank.

Twenty Stage Band members, **RIGHT**, pose outside their motel during a three-day stay when they competed in the Reno Jazz Festival.

On stage during their award-winning performance, Stage Band, directed by Mr. Michael Garrett, **RIGHT**, snatched top honors, although competing against 38 other high schools in the large school division. Mr. Hal Reid, principal, and parents accompanied them on this highly successful trip.

New teacher-coordinator of the Distributive Education program during the second semester, Mr. Bob Jorge, **BOTTOM RIGHT**, comes from a similar position in Barstow. Mr. Jorge replaces Mrs. Lyn Cox who retired.

Stormy skies, **BELOW**, attracted staff photographer, Reid Baker. Spring brought rare rain and exceptionally windy days.

Lt. Tom Gaylon, **BOTTOM**, escorts the reluctant Mr. Michael McGrath, vice-principal, and the unheeding Mr. Gary Parker, campus supervisor, to an unknown destination. Actually the alert photographer surprised the trio during the Homecoming Parade.

Many thanks for the successful publication of this yearbook go to Mr. Jim Gift, representative from the American Yearbook Company. Jim was a great help to us in planning ahead, giving advice with problems, and helping at deadline time.

Also thanks go to the O'Connor Bros. Studios. At the beginning of the year, Mike O'Connor was here taking special color pictures for the opening section of the book. I remember dragging Mike all over campus and Ridgecrest in search of just the "perfect picture."

I can't forget the 1975 El Burro Staff. For a year we worked together to bring you a book you'll always remember. Together we laughed and cried, and sometimes even fought sweating out deadlines, in the process becoming a family.

Being editor of the El Burro has taught me many things: among them is responsibility, responsibility to myself and others. I grew to love each member of my staff for themselves and that's most important.

These people will always be very precious and special to me throughout my life. Thank you all! We the 1975 El Burro staff hope you enjoy this year's book. It was put together with lots of love for you.

1,2 To Sheila Simmons and Laura Christman, co-editors, I'd like to say, "Thank you!" Many times I asked them to do things at the last moment and I depended on them to pull through. They always did. Without their help, I couldn't have done it.

3 Here is a fantastic lady, as an advisor and as a friend. Much worrying and interest on her part went into the making of this book. The guidance and faith was indeed an inspiration. Mrs. Williams, "Thank you!"

4 He never said a lot, but Walt Becktel sure was a hard worker. He did all the art work, hand lettering, and line designs for the El Burro. Walt added all the extras that help to make the book artistic.

5 I don't know what words I can say to thank Mimi Smith. She did assigned work to perfection, and also helped with special assignments. She took some of the photos for the book too. Mimi was a great asset to this year's book and I want her to know that I do appreciate her help.

6 What I loved most about Jed Thornberry was his pleasant attitude. At any time, usually at the last minute, a staff member could ask him to take pictures and he always replied, "Sure, I'll do it." Sometimes a pleasant attitude can keep you going. Thanks, Jed.

7 Reid Baker had a big job, head photographer! Everyone, including me, expected him to take, develop, and print pictures and have them to us before deadline. Without Reid's pictures, the book would have been dull!

8 Richie Haddock, also a photographer, had charge of the printing room and the Ektamatic Processor. Richie made a valiant effort to keep things clean and organized, and managed to print a lot of pictures too.

9 There is one person whose contributions to the book and the whole El Burro staff are taken for granted, Janet Gardner. Besides her assignments, Janet has done all the posters for El Burro. She's a wonderful person and a hard worker, "Special thanks, Janet!"

You, Me, They and We -

A Piece of the Puzzle

Beneath the High Sierras
Our Alma Mater stands
Encircled by the mountains
Swept by desert sands.
Our colors show the green and white
Our spirit stands for truth and right
To Burroughs High we lift our cheer
Hail, Alma Mater, dear

to Barb,

You're a
really sweet person
and a good friend.
I hope you got every thing
you want and hope I'm
always your friend.
Ronne

Barb,

You are my first love and the only love I have. I don't care what things are like between us I will always love you.

It's been a very learning 5 months with you and looking back I can see how they will help in my life to come. You are a beautiful person that is so alive! Life is going to go up and down, but I know you, and know that you won't let anything keep you down long.

It's strange that I'm signing your yearbook like I am.

I guess I'm saying good-bye but I always want you to know I'm your friend for everything, and forever.
Your friend, lover or whatever else I can be to you.
Love Steve
